

I want to talk to you about... Medicaid funding of HCBS waivers in Georgia

This is important to me because...my mother relies on Medicaid HCBS waivers to stay in the community with me. If she did not have an HCBS waiver, we might have to live in a nursing facility. I would not be able to accompany her to work, to the grocery store, to church, and most importantly the dog park.

Any Medicaid cuts in Georgia put my mother's Medicaid HCBS waiver in danger because her HCBS waiver is optional for states to provide. I worry that if the Georgia does not have enough money for Medicaid, they could be forced to stop funding HCBS Medicaid Waivers.

Please protect Medicaid. No Cuts & No Caps!
